3M™ Littmann® Lightweight II S.E. Stethoscope

An ideal entry-level instrument stethoscope with an improved design that provides reliable acoustics for basic blood-pressure and limited physical assessment.

- The teardrop shaped chestpiece design provides for better orientation around blood pressure cuffs and body contours.
- Traditional bell combined with a tunable diaphragm that conveniently alternates between low- and high-frequency sounds without the need to turn over chestpiece.
- Comfortable angled, anatomically correct headset.
- Single-lumen tubing
- Acoustic Performance Rating: 6
- Two-year warranty

3M™ Littmann® Classic II S.E. Stethoscope

Featuring a two-sided chestpiece, the Littmann Classic II S.E. stethoscope offers high acoustic sensitivity for superior performance. A patented tunable diaphragm on one side augments the traditional bell function of the opposite side.

- Traditional bell combined with a patented tunable diaphragm that conveniently alternates between low and high frequency sounds without the need to turn over the chestpiece.
- Excellent acoustic seal and comfortable fit with patented Littmann Snap Tight soft-sealing eartips.
- Comfortably angled, anatomically correct headset.
- Patient-friendly, non-chill rim and diaphragm.
- Single-lumen tubing in a variety of popular colors.
- Acoustic Performance Rating: 7
- Three-year warranty
3M™ Littmann®
Classic III Stethoscope

The Classic III stethoscope brings new design, materials, and technology to the Littmann stethoscope series that's been used and trusted by millions of medical professionals worldwide for decades.

- Features a double-sided, dual diaphragm chestpiece for both adult and pediatric assessment.
- The pediatric side is also easily transformed into a traditional open bell by replacing the single-piece diaphragm with the supplied non-chill rim.
- Next-generation tubing gives even longer tube life with improved resistance to skin oils, alcohol and staining.
- ‘Tunable Technology’ lets you easily switch from low to high frequency sounds by switching from light to firm pressure on both the adult and pediatric sides of the chestpiece.
- Larger ear tubes on the anatomically designed headset comfortably positioned for better sound transfer.
- Acoustic Performance Rating: 7
- Five-year warranty
